

## LA1200S

LA1200S, an active RFID short range activator, which is developed and produced by Microprogram. Users can update settings, custom trigger **mod**, such as single transmitter, cumulative transmitters and timing transmitters, via dedicated wireless tool. LA1200S provides flexible application, high signal penetration, reducing the impact of environmental disturbances, stable and efficient energy performance.

### Spec

LF Frequency	125KHz
LF Range (Activator - Tag)	up to 4 meter for Free spac
Dimensions	85 x 128 x 33 mm
Weight	155 g
Mounting	Wall-Mounted
Operating Temperature, Humidity	0°C ~ +85°C, 10%~100% RH
Storage Temperature, Humidity	-40°C ~ +85°C, 10%~100% RH
Sealing Level	IP65
I/O Interface	RS232/RS485
Input Power (Adaptor)	DC12~24V
Power	2~8W
Warranty	1 year
Centerfield	NCC
